PROFILE

QA Automation Engineer with solid, hands-on experience in software testing, test automation, and API testing. Skilled in building and maintaining automation frameworks with Selenium, Cypress, and Playwright, and in designing, executing, and documenting test cases across functional, regression, and end-to-end testing. Experienced in defect identification, tracking, and resolution within agile Scrum teams. Certified in ISTQB Foundation Level (CTFL v4.0) and AWS Solutions Architect – Associate, with a technical background in Java, Spring Boot, and backend development.

EXPERIENCE

QA Engineer <i>ITGate Group — Sousse, Tunisia (Full-time)</i>	Jan 2025 – Oct 2025
- Developed and maintained test automation frameworks using Selenium, Cypress, and Playwright - Performed regression, smoke, and functional testing within CI/CD pipelines - Conducted API testing with Postman and REST Assured to ensure backend quality - Tracked and documented defects using Jira within agile Scrum teams - Improved test coverage and reduced production defects through strategic automation	
QA Engineer (Internship) <i>ITGate Group — Sousse, Tunisia</i>	Jan 2024 – Jun 2024
- Executed 120+ manual test cases across frontend, backend, and database layers - Identified and documented 25+ defects via Jira, including critical issues - Improved test coverage and reduced production defects by approximately 20% - Contributed to test automation with Selenium and API testing with Postman - Collaborated with developers in a Scrum team to accelerate defect resolution	
Back-End Developer (Internship) <i>ESIP — Gafsa, Tunisia</i>	Jan 2022 – Jun 2022
- Developed a web platform with 10+ core features, including authentication, CRUD, and role management - Implemented REST APIs using Java and Spring Boot - Optimized MySQL database queries to improve application performance - Deployed the application on Microsoft Azure with stable availability	

SKILLS
