PROFILE

Cybersecurity graduate (Master's degree, assessed by ZAB as equivalent to a German Master's) with hands-on Wazuh (SIEM/XDR) experience from my Master's project and a personal SOC lab: deploying Manager, Indexer and Dashboard, registering agents on Windows 11, and collecting and analyzing Windows security events and alerts. Professional experience in 1st level IT support with troubleshooting on Windows and Linux and network diagnostics. Penetration testing fundamentals with Nmap. Looking for a Junior SOC Analyst / Security Analyst role – German C1, available immediately.

PROFESSIONAL EXPERIENCE

IT Support (1st Level) 01/2025 – 10/2025
ITGate Group, Sousse, Tunisia · Full-time

- 1st level IT support: handling and resolving technical problems for users
- Diagnosed and fixed hardware and software issues on Windows and Linux
- Basic IT administration and troubleshooting
- Analysis of network issues (TCP/IP, IP addressing, ports and services)

Backend Developer (Internship) 01/2022 – 06/2022
ESIP – École Supérieure d'Ingénieurs Privée de Gafsa, Tunisia

- Built REST APIs with Java, Spring Boot and Maven, including authentication and role-based access control
- Designed the MySQL database; deployed the backend services on Microsoft Azure

INTERNSHIP & PROJECTS (CYBERSECURITY)

Master's Internship: Pentesting & SOC with Wazuh 01/2024 – 06/2024
ISSAT Gafsa, Tunisia · internal Master's project

- Pentesting: reconnaissance, network scanning and service identification with Nmap, vulnerability identification and analysis
- Built a Wazuh environment on Ubuntu (Manager, Indexer, Dashboard, Filebeat); registered an agent on a Windows 11 endpoint
- Collected Windows security events; analysis in the Wazuh Dashboard and in JSON log files
- Validated the detection pipeline with test events (eventcreate); analyzed alerts from CIS Windows 11 benchmark rules

Personal SOC Lab with Wazuh 4.14.9 since 08/2026
Mac (UTM/QEMU) with Ubuntu VM as Wazuh server · physical Windows 11 laptop as endpoint

- Network configuration between VM and physical host, agent deployment and Windows event collection
- Alert verification, analysis of JSON events and logs, troubleshooting of agent communication

EDUCATION

Master's Degree in Cybersecurity 09/2022 – 06/2024
Higher Institute of Applied Sciences and Technology of Gafsa (ISSAT), Tunisia · assessed by ZAB as equivalent to a German Master's (LN2025/69865-1)

Bachelor's Degree (Licence) in Computer Science – Web & Multimedia Development 09/2019 – 06/2022
Higher Institute of Technological Studies of Gafsa (ISET), Tunisia

Professional German Language Course (Berufssprachkurs) 02/2026 – 07/2026
BBAG e.V., Potsdam

SKILLS

Security Operations: Wazuh (SIEM/XDR), Security Monitoring, Log Analysis, Alert Analysis, Windows Event Logs
Pentesting & Network: Nmap, Wireshark, Vulnerability Assessment, TCP/IP, IP addressing, Ports & Services, HTTP/HTTPS
Systems: Windows 11, Ubuntu Linux, Linux command line, Virtualization (UTM/QEMU)
Programming & Tools: Python, Java, JavaScript, SQL, Git · AI tools: GitHub Copilot, Claude Code
Other: Open to a trial work day or an internship to get to know each other · available immediately
